PROFESSIONAL SUMMARY

B.Tech Computer Science Engineering student at Parul University with interests in Software Development, Web Technologies, and AI solutions. Skilled in Python, Java, JavaScript, SQL, and full-stack development through academic projects and hackathons. Runner-Up at Vadodara Hackathon 6.0 among 720+ teams.

EDUCATION

Parul University, Vadodara 2023 – 2027
Bachelor of Technology in Computer Science Engineering CGPA: 8.37

PROJECTS

TravelLoop – Smart Travel Management System 2026
Modern travel management application featuring secure trip organization, budgeting, and recommendation functionalities

- Built a scalable full-stack web application using React.js, Node.js, and PostgreSQL across 3+ integrated modules.
- Implemented JWT authentication and trip management features supporting 5+ core application modules.
- Designed full-stack architecture with 10+ reusable UI components and optimized state management.
- Integrated AI recommendation features and 3+ responsive dashboard interfaces for enhanced travel planning.
- Collaborated within a 4-member GitHub workflow to streamline debugging, feature integration, and deployment.

Accident Hotspot Detection System 2026
Data-driven road safety solution for detecting accident-prone locations through analytics and visualization

- Developed an interactive analytics dashboard with 5+ visualization modules using Python, Flask, Pandas, and NumPy.
- Processed and analyzed 50,000+ accident records to identify accident-prone regions and traffic risk patterns.
- Spearheaded preprocessing, cleaning, and visualization of 50,000+ structured data entries using Pandas and NumPy.
- Integrated Flask backend services with 5+ HTML/CSS frontend interfaces for interactive data visualization.
- Generated 15+ analytical hotspot reports to support road safety awareness and decision-making.

CERTIFICATIONS

- AWS Academy Graduate** — Amazon Web Services (2025)
- NPTEL Computer Networks Certification** — NPTEL (2025)

TECHNICAL SKILLS

- Languages:** Python, Java, JavaScript, C, C++, SQL
- Web Technologies:** HTML, CSS, React.js, Next.js, Node.js, Express.js, Flask
- Developer Tools:** Git, GitHub, VS Code
- Cloud/Databases:** AWS, MySQL, MongoDB
- AI & Other Skills:** Prompt Engineering, REST APIs, Generative AI Basics
- Coursework:** Data Structures & Algorithms, DBMS, Computer Networks
- Soft Skills:** Problem Solving, Teamwork, Communication

ACHIEVEMENTS

Vadodara Hackathon 6.0 — Runner-Up October 2025
Top 45 teams among 720+ competing teams

- Secured Runner-Up position — Top 6% among 720+ teams for innovation and technical execution.
- Coordinated research and collaboration within a 4-member team to develop Sikkim Monastery, an AI-guided digital heritage platform, contributing to a Runner-Up finish among 720+ teams.
